

AVIATION MANAGEMENT REDEFINED

MORE THAN JUST FLIGHT SCHEDULING SOFTWARE; AVMOSYS® TRANSFORMS THE WAY YOU MANAGE YOUR ENTIRE FLIGHT OPERATION

AVMOSYS is different. It's the only web-based, one-solution suite designed to intuitively enhance the knowledge, communication, and coordination throughout your entire flight operation. Imagine all of your employees, customers, vendors, and resources operating together with seamless interaction- on one platform- in real-time. It is the AVMOSYS advantage!

AVMOSYS was built by seasoned professionals experienced in business aviation operations, and designed with YOU in mind. Not only does AVMOSYS manage information that spans significantly beyond the flight schedule, but it works harmoniously with other key software providers, and it's customizable to fit your employees' individual needs and responsibilities.

UNLIKE "ONE-SIZE-FITS-ALL" SOFTWARE, AVMOSYS ADAPTS TO EACH USER TO CUSTOMIZE THE WAY IT WILL WORK FOR THEM. THAT'S WHAT MAKES IT YOUR AVMOSYS.

With AVMOSYS, you're backed by the industry's best and most experienced customer service team who stand ready to help you every step of the way to make sure your transition, implementation, training, and support are second to none.

QUICK FACTS

The only comprehensive, cloud-based enterprise software you'll ever need to help you manage your aviation operation:

- Cloud-hosted, web-based system with 24/7 access from your desktop or mobile devices
- Enhanced flight scheduling capabilities to coordinate flights, aircraft, crews, and training with ease
- Highly customizable interface for each user based on their individual roles and responsibilities
- Allows you to incorporate your unique business processes with our powerful workflow engine
- Powerful, flexible, real-time reporting
- Seamless integration with other software, including ARGUS' safety and risk management products, qualifications, and fleet tracking
- 24/7 customer service dedicated to ensuring success with *your AVMOSYS*

A flight management system based on leading edge technology that can handle any process a flight operation could throw at it.

-DAVE WEAVER, FLIGHT CONTROL MANAGER
SHEARWATER AIR

THE AVMOSYS ADVANTAGE: TAKE A CLOSER LOOK AT THE FEATURES AND BENEFITS THAT GIVE YOU THE POWER TO MANAGE YOUR OPERATION, NOT JUST YOUR FLIGHT SCHEDULE

WITH THE POWER OF AVMOSYS AT YOUR FINGERTIPS, YOUR ORGANIZATION WILL BECOME MORE EFFICIENT, ELIMINATE ERRORS, MANAGE COSTS, AND IMPROVE COMMUNICATION

CLOUD-HOSTED 24/7 MOBILITY

AVMOSYS is a cloud-hosted, web-based system with 24/7 access from your desktop or mobile devices.

Online/offline mode for mobile applications that facilitates on-ground and in-air work.

EFFECTIVE COMMUNICATION

Efficient communication tools to manage internal resources, external vendors, and passenger relations.

Robust reporting features, dashboards, and widgets along with excellent customer service support tools.

MANAGE FINANCIALS

AVMOSYS easily manages tax-related data, budgets, billing processes, fixed and variable expenses.

AVMOSYS is also fully integrated with many of today's leading accounting applications.

SEAMLESS INTEGRATIONS

Seamless integrations with other software, including aircraft maintenance, contract fuel, SMS programs, charter marketplaces, accounting systems, aircraft tax software, third-party service providers, and government agencies to help you take control of your entire flight operation.

PROCESS EFFICIENCY

Manage the difficulties of interwoven workflow processes while enhancing scalability and efficiency.

Built-in workflow management allows you to program the system to adapt to your organizations' procedures, notifications, calendar item tracking, and more.

ENHANCE SCHEDULING

Schedule company employees, aircraft, crews, and training with ease, efficiency, and timeliness.

Create custom schedule views containing the information and functionality you need to manage your aircraft, trips, and crew members from one screen.

ABOUT ARGUS

ARGUS International, Inc. (ARGUS) is a specialized aviation services company whose mission is to provide the aviation marketplace with data and information necessary to make informed decisions and manage risk. ARGUS provides world-class aviation software and business management solutions, including AVMOSYS business management software, TRAQpak, ARGUS Ratings, and ARMOR SMS.

ARGUS subsidiaries include ARGUS PROS, a leading provider of on-site safety audits; PRISM, a worldwide leader in Safety Management System (SMS) and Certification services; and Unmanned Safety Institute (USI), a leading provider of safety training, certification and management of unmanned aerial vehicles. Founded in 1995, ARGUS is headquartered in Cincinnati, Ohio, and actively engaged around the globe.
